

Algorithm Execution

1. Install Libraries in terminal
pip install streamlit pandas openpyxl
2. Open Project in VS Code
 - File -> Open Folder -> Select **Algorithm** Folder and Open
3. Run python code files with .py extension
 - jury_panel_mapping for prefinals output
 - jury_panel_generalized for finals output
4. Check output file saved as
 - Final_Output for Prefinals
 - Finalsss_Output for Finals
5. Run Streamlit UI
 - Open terminal and open folder location with this command
cd "C:\Users\2290740\Desktop\Algorithm Code\Jury_Panel_App"
 - To open Browser
 - python -m streamlit run finals_app.py - for prefinals
python -m streamlit run finals_app.py- for finals
6. After Browser opens, upload the input files asked
For Finals :
Entries Input File : TCS_Finals_Entries
Jury Input File: Jury_Availability_Entries
Click on Run Mapping and Download the Output File from the bottom of the page
